Contents of Volume 34

Dielectric relaxation and molecular motion in polar fluids: dynamic and kinetic approaches
V.I. Gaiduk and Y.P. Kalmykov (Moscow, U.S.S.R.) 1
Influence of hydrogen bonding on the diffusion behaviour of benzyl alcohol
F. Schuppe, I. Schaller, A. Kolbe (Halle, D.D.R.) and I. Wawer (Pasteura, Poland) 223
Dielectric relaxation in liquid trichloroacetonitrile
M. Pajdowska, J.P. Hawranek, R. Szostak and L. Sobczyk (Wrocław, Poland) 231
Dielectric spectroscopy of aqueous $ZnCl_2$ solutions. Dependence upon solute concentration and comparison with other electrolytes
U. Kaatze, V. Lönnecke and R. Pottel (Göttingen, F.R.G.) 241
Dielectric studies of binary mixtures of butanols in nonpolar solvents — solute-solvent interactions
B.B. Swain and G.S. Roy (Cuttack, India) 257
The dynamics of liquid water: Electric field effects
M.W. Evans (Swansea, Gt. Britain) 269
The dynamics of liquid water: Simulation and submillimeter spectroscopy
G.J. Evans (Aberystwyth, Gt. Britain), M.W. Evans (Swansea, Gt. Britain), P. Minguzzi, G. Salvetti, C.J. Reid (Pisa, Italy) and J.K. Vij (Dublin, Ireland) 285
The effect of tetramethylammonium ions on the distribution of silicate species in the methanolic solutions
I. Hasegawa, S. Sakka (Kyoto, Japan), K. Kuroda and C. Kato (Tokyo, Japan) 307
Structural relaxation behavior of a 30% mole fraction mixture of DMSO and water
P. Bezot, C. Hesse-Bezot, D. Roynard (Nice, France) and J.P. Petitet (Villetaneuse, France) 317
